

Flush Drugs, Drink the Consequences

Safe Drug Disposal in Flathead County

Don't let your medicine cabinet become water pollution.

Unused medications can harm our community & the environment. Safe disposal of extra or unused medication protects public health and safety and keeps our rivers, lakes, and groundwater clean.

More Information:

Proper Disposal

Flathead County has many prescription drug drop off sites that allow for safe disposal of unused medication. These sites accept unused prescription pills or tablets, but do not accept liquids.

Needles and sharps can be disposed of at participating pharmacies.*

Cancer medication cannot go in the drop off bins - please handle with care and check with your doctor for proper disposal.

Please, do not flush unused medications or pour them down the drain as they can easily enter surface water and groundwater supplies.
