Learn more about the WASTENOT PROJECT at www.wastenotproject.org

Working to reduce waste and increase recycling in the Flathead since 1993

 Fix It Flathead is an offshoot of the WasteNot Project. Often it is easier to throw an item away than to find someone who can fix it. We aim to change that.

WHY REPAIR?

REPAIR IS BETTER THAN RECYCLING

Making things last longer is both more efficient and more cost effective than mining them for raw materials.

REPAIR SAVES YOU MONEY

Fixing things is usually cheaper than replacing them. Doing the repair yourself saves you even more money.

LEARN SOMETHING NEW!

Fixing something yourself is fun, teaches you new skills, and you can learn how things work.

IF YOU CAN'T FIX IT, YOU DON'T OWN IT

Repair connects people with their stuff, creating bonds that transcend consumption.

REPAIR IS SUSTAINABLE

It keeps your stuff out of the landfill.

Do you know someone you think should be mentioned in this guide? Send us your favorite repair shops. Has someone on this list gone out of business? Let us know.
